<b>Price:</b>	<b>3.665,20 €</b> <b>(nett:3.080,00 €)</b>

## Product description

The Porsche 911 model 992.1 winter wheel set is the ideal solution for those who seek reliability and style even in difficult winter conditions. The set includes 8.5J x 19 ET52 rims on the front axle and 11J x 20 ET66 rims on the rear axle, ensuring excellent stability and traction. The rims are finished in black seidenmatt, adding elegance and a modern look.

Pirelli winter tyres are known for their exceptional quality and durability. In this set, the front tyres are 235/40 R19 and the rear tyres are 295/35 R20, guaranteeing optimum performance on snow and ice. In addition, the set is equipped with tyre pressure sensors (RDK sensors), which increase safety by continuously monitoring the condition of the tyres.

The OEM number for this set is 992044600A JE1, which confirms that these are genuine Porsche parts, designed specifically for the 911 992 series. The new condition of the product guarantees that you receive an unused, undamaged and fully functional item.

By choosing this set of winter wheels, you are investing in the safety, reliability and aesthetics of your Porsche 911, which is especially important during the winter months.
