Available:	<b>ready for shipping</b>
<b>Price:</b>	<b>6.711,62 €</b> <b>(nett:5.640,02 €)</b>

## Product description

This set of winter wheels for the Porsche 911 992.1 GTS, consisting of 20-inch and 21-inch "Turbo S" rims with central locking, is specially designed for use in winter conditions. The rims in sizes 8.5J x 20 ET50 and 11J x 21 ET66 feature an elegant black satin finish that is not only visually appealing but also robust enough to withstand the challenges of cold and wet weather conditions.

Equipped with high-quality Michelin winter tyres in sizes 245/35 R20 for the front axle and 295/30 R21 for the rear axle, these wheels offer excellent traction and safety on snow and ice. The tyres are specially designed to deliver optimum performance at low temperatures by ensuring improved grip and stable handling.

Another feature of this wheel set is the integrated TPMS (tyre pressure monitoring system) sensors, which continuously monitor the pressure and temperature of the tyres to ensure optimum performance and safety.

This winter wheel set is exclusively suitable for the Porsche 911 992.1 GTS with central locking and has the OEM number 992044601BA. As original Porsche parts, these wheels not only guarantee a perfect fit and quality, but also compliance with Porsche's high safety and performance standards.

The product is new, which means it is a new, unused and undamaged item. This high-quality winter wheel set is an excellent choice for Porsche 911 992.1 GTS owners who do not want to compromise on performance and aesthetics, even in winter.

## Technical specifications

Front rims:	Article number: 992601025ATJE1 Quantity: 2 Rim width: 8,5J Rim diameter (inch): Offset (ET):
