Available:	ready for shipping
Price:	3.471,84 € (nett:2.917,51 €)

Product description

This set of summer wheels for the Porsche 911 model 992.1 (pre-facelift, built between 2019 and 2024) is an excellent choice for drivers who value quality and performance. The set consists of two 20-inch rims on the front axle and two 21-inch rims on the rear axle, specifically dimensioned at 8.5J x 20 ET53 and 11.5J x 21 ET67. These dimensions ensure an optimal fit and excellent driving characteristics.

The rims are fitted with brand new summer tyres, with dimensions of 245/35 R20 for the front axle and 305/30 R21 for the rear axle. This tyre combination offers an excellent balance between grip and driving comfort, ideal for warm weather conditions.

Another highlight of this wheel set is the integrated TPMS (tyre pressure monitoring system), which constantly monitors the pressure in the tyres for added safety and efficiency.

The rims and tyres are new or as good as new. The rims have very low mileage and may show minimal signs of use or storage. The tyres are brand new (0 km mileage), giving you the assurance that no previous wear or ageing will affect performance.

The OEM number for this wheel set is 992044660B, which confirms the authenticity and high quality of the original Porsche parts. This wheel set is not only a functional upgrade, but also a visual enhancement for your Porsche 911 model 992.

Technical specifications

Front rims:	Article number: 992601025DD88Z Quantity: 2 Rim width: 8,5J Rim diameter (inch): Offset (ET):
