Available:	shipping in 2-3 weeks
Price:	4.284,82 € (nett:3.600,69 €)

Product description

This set of 20" Carrera S III winter wheels for the Porsche 911 model 991.1 (C4/C4S/GTS/Turbo) before the facelift (built between 2012 and 2016) is an excellent choice for drivers who do not want to compromise on performance and safety in winter. The wheels are specially designed for all-wheel drive models and offer excellent traction and stability in winter conditions. The rims in the set measure 8.5J x 20 ET51 for the front axle and 11J x 20 ET52 for the rear axle, ensuring an optimal fit and performance. The high-quality platinum silk matt finish not only looks attractive, but is also robust enough to withstand winter road conditions. The rims are fitted with Pirelli winter tyres in sizes 245/35 ZR20 for the front axle and 295/30 ZR20 for the rear axle. These tyres offer excellent grip on snow and ice as well as improved water displacement to prevent aquaplaning. In addition, the wheels are equipped with TPMS sensors that continuously monitor tyre pressure, providing an additional level of safety.

The set has the OEM number 99104460038 and comes directly from Porsche, which guarantees high quality and a perfect fit. As a new, unused and undamaged original part, this set of winter wheels offers a reliable solution for your winter driving. With this set of winter wheels, you can be sure that your Porsche 911 is optimally equipped even in bad weather conditions.

Technical specifications

Front rims:	Article number: 991362161040B5
	Quantity: 2
	Rim width: 8,5J
	Rim diameter (inch):
	Offset (ET):
