Discount:	45%
Available:	ready for shipping
Price:	**3.596,70 €** **(nett:3.022,44 €)**

Product description

This set of 20" SportTechno summer wheels for the Porsche 911 model 991.1 Carrera and Carrera S is an excellent choice for drivers looking for both style and performance. The set consists of two front rims in size 9J x 20 ET51 and two rear rims in size 11.5J x 20 ET68, which are perfectly matched to the dynamics and design of the Porsche 911. The rims are fitted with new Pirelli P Zero summer tyres, which are known for their outstanding performance on dry and wet roads. The tyre dimensions are 245/35 R20 at the front and 305/30 R20 at the rear, ensuring optimum grip and driving stability. This tyre combination not only offers improved road holding, but also an attractive appearance that emphasises the sporty nature of the vehicle.

An important note regarding the installation of these wheels is that they are suitable for vehicles without TPMS (tyre pressure monitoring system) sensors. This should be taken into account before purchasing to avoid compatibility issues.

The rims and tyres are new or as good as new. The rims have very low mileage and may show minimal signs of use or storage, while the tyres are brand new (0 km mileage). This ensures that you receive a product of near-new quality.

The OEM numbers for these wheels are 99104460259 and 99104460209, confirming their authenticity as genuine Porsche parts. This guarantees that they meet Porsche's strict quality standards and offer a perfect fit and long durability.

In summary, this set of summer wheels is an excellent investment for any Porsche 911 991.1 owner who wants to enhance the appearance of their vehicle and improve its driving performance.

Technical specifications
