Product description

This set of 20" Taycan Tequipment Design summer wheels is a perfect choice for Porsche Taycan owners looking to enhance their vehicle's performance and aesthetics for the warmer months. Specifically designed for the Porsche Taycan J1 II Facelift 2024, these wheels are a genuine Porsche product, ensuring compatibility and quality.

The set includes four high-gloss black wheels with dimensions tailored for the Taycan: two front wheels measuring 9J x 20 ET54 and two rear wheels measuring 11J x 20 ET60. This staggered setup not only contributes to a more aggressive stance but also improves handling by optimizing the contact patch of the tires.

Accompanying the rims are Michelin summer tires, sized 245/45 R20 for the front and 285/40 R20 for the rear. These tires are chosen for their exceptional performance in dry and wet conditions, offering superior grip and handling that Porsche drivers expect.

The OEM number for this set is 9J1073663HH, confirming its authenticity as a Porsche original part. As a new item, it comes in pristine condition, ensuring that it is free from any damage or wear.

Ideal for Porsche Taycan owners looking to upgrade or replace their summer wheels, this set not only enhances the visual appeal of the vehicle but also its road-handling capabilities. Whether cruising on the highway or navigating tight corners, these wheels and tires provide the reliability and performance synonymous with the Porsche brand.
