Discount:	35%
Available:	ready for shipping
Price:	4.165,29 € (nett:3.500,24 €)

Product description

This set of 20-inch Tequipment Design summer wheels has been specially developed for the Porsche Taycan J1 (2019-2024) and offers a perfect combination of style and performance. The wheels consist of two different rim sizes: 9J x 20 ET54 at the front and 11J x 20 ET60 at the rear, both in an elegant platinum silver finish. This dimensioning ensures an optimal fit and improves both the aesthetics and driving dynamics of your vehicle.

In addition, the rims are fitted with brand new Michelin summer tyres, which ensure excellent performance in warm weather conditions. The tyre sizes are 245/45 R20 at the front and 285/40 R20 at the rear, guaranteeing balanced traction and excellent road holding. The tyres are new and show no signs of wear, as they come directly from the factory (0 km mileage). Another highlight of this wheel set is the integrated TPMS (tyre pressure monitoring system), which constantly monitors the air pressure and contributes to safety by informing the driver when the tyre pressure is not optimal.

The rims themselves are marked as used, but are in mint condition with very low mileage and possibly minimal signs of use or storage. They are original Porsche parts, which guarantees their quality and fit. The OEM number for this wheel set is 9J1073650G.

This high-quality wheel set is an excellent choice for Taycan owners who value quality, safety and striking design. It gives your Porsche Taycan an individual touch while ensuring an optimal driving experience.

Technical specifications

Front rims:	Article number: 9J1601025CTOU7 Quantity: 2 Rim width: 9J Rim diameter (inch): Offset (ET):
Rear rims:	Article number: 9J1601025DAOU7 Quantity: 2 Rim width: 11J Rim diameter (inch): Offset (ET):
