Discount:	35%
Available:	ready for shipping
Price:	4.402,49 € (nett:3.699,57 €)

Product description

This set of 20-inch Turbo III summer wheels is specially designed for Porsche 911 models in the 991.1 series prior to the facelift, including the Carrera 4, Carrera 4S and GTS variants with all-wheel drive. The wheel combination includes 8.5J x 20 ET51 rims for the front axle and 11J x 20 ET52 rims for the rear axle, ensuring an optimal fit and excellent driving stability. The rims are fitted with high-quality Pirelli summer tyres, which provide excellent driving characteristics in warm weather conditions. The tyre sizes are 245/35 ZR20 at the front and 305/30 ZR20 at the rear, offering a balanced combination for improved traction and handling. These tyres are new and show no signs of wear, as they come directly from the factory (0 km mileage).

Please note that this wheel set is suitable for vehicles without a tyre pressure monitoring system (TPMS). The rims themselves are in mint condition with possibly minimal signs of use or storage, which does not affect their quality and durability.

The OEM number for this wheel set is 99104460283, which confirms its authenticity as an original Porsche part. This set is an excellent choice for drivers who want to enhance the performance and appearance of their vehicle with genuine Porsche components without compromising on quality and fit.

Technical specifications

Front rims:	Article number: 991362161060C6
	Quantity: 2
	Rim width: 8,5J
	Rim diameter (inch):
	Offset (ET):
