(nett:3.770,99 €)

Product description

Upgrade your Porsche Macan with the 21" Sport Classic Summer Wheel Set, designed specifically for the Macan models 95B II/III (facelift years 2019-2025). This set includes four high-quality wheels with a sleek platinum silk matte finish, enhancing both the aesthetics and performance of your vehicle.

The front wheels measure 9.5J x 21 with an offset of ET27, while the rear wheels are 10J x 21 with an offset of ET19, providing a perfect balance and fit for your Macan. These dimensions ensure that the wheels align perfectly with the vehicle's body, reducing the risk of any rubbing issues while driving.

Equipped with brand new Michelin summer tires, sizes 265/40 R21 for the front and 295/35 R21 for the rear, these tires offer excellent road grip and a smooth ride during warmer seasons. The combination of these premium tires with the Sport Classic wheels guarantees superior handling and traction.

Additionally, the wheels come fitted with RDK sensors (Tire Pressure Monitoring System), which continuously monitor the tire pressure, enhancing your safety and maintaining optimal tire condition for longer tire life and better fuel efficiency.

This wheel set is a genuine Porsche original part, with the OEM number 95B044665R, ensuring compatibility and quality. The condition is listed as used but is in very good shape with no damage, maintaining the high standards expected from Porsche components.

Ideal for Porsche Macan owners looking to replace or upgrade their vehicle's wheels with an option that offers both functionality and a boost in the vehicle's visual appeal, this 21" Sport Classic Summer Wheel Set is an excellent choice.
