Available: **ready for shipping**

Price: **8.094,01 €**
(nett:6.801,69 €)

Product description

This left side fender, specifically designed for the Porsche 911 model 991, including the "911R" variant, is crafted from high-quality carbon fiber, offering both durability and a significant reduction in weight compared to standard fenders. The part number for this fender is either 991503031A3G2X or 991503031A3GRV, ensuring it matches specific vehicle configurations within the Porsche 911 range for the 991 model.

Although this fender is used, it is in very good condition with only minor signs of wear or handling. It should be noted that the color of the fender may differ from the original, and as such, it will require painting to match your vehicle's specific color. This might include addressing minor scratches on the existing paint.

This product is an original Porsche part, assuring compatibility and quality. When replacing a fender, especially one made from carbon fiber, you not only maintain the aesthetic integrity of your vehicle but also benefit from the material's lightweight properties, which can enhance the performance and handling of your Porsche. Before purchasing, please verify the compatibility of this fender with your Porsche 911 model 991 to ensure a perfect fit and optimal performance.
