<b>Price:</b>	<b>887,17 €</b> <b>(nett:745,52 €)</b>

### Product description

The power unit for the Porsche 718 Boxster and Cayman, model series 982, is an essential component of the anti-lock braking system (ABS). This high-quality spare part helps to maintain the safety and performance of your vehicle by ensuring control over the brakes even in difficult conditions.

The OEM part numbers for this specific hydraulic unit include 982698517D, 982698517C, 982698517B, 982698517A and 982698517. This range of part numbers confirms compatibility with various versions of the Porsche 718 Boxster and Cayman models.

The power steering unit on offer is second-hand but in very good condition. It is undamaged and consists of genuine Porsche parts, which ensures its quality and reliability. The use of genuine parts guarantees that the manufacturer's specifications and performance standards are met, which can be critical for maintaining the vehicle's warranty and performance.

This part is ideal for owners of a Porsche 718 Boxster or Cayman who need to replace a damaged or faulty hydraulic unit without compromising on the quality or authenticity of the components. It offers a reliable solution to restore the full functionality of your vehicle's ABS system and maximise driving safety.
