Product description

This instrument cluster for the Porsche 911 model 991.2, specially designed for models C2 and C4, is an essential component for displaying various vehicle functions. It is a used but original Porsche part in very good condition. The dials are finished in an elegant matt black, giving the interior of your vehicle a stylish and modern look.

The instrument is compatible with vehicles equipped with the Porsche double-clutch transmission (PDK) and provides a precise and clear display of speed, revs, fuel level and other important driving information. It integrates seamlessly into your vehicle as it is an original part with the OEM numbers 9P1920910ADA05, 9P1920910ABA05, 9P1920910T A05, 9P1920910R A05, 9P1920910M A05 and 9P1920910K A05.

The use of original parts not only ensures optimum fit and function, but also helps to maintain the value of your Porsche. This instrument cluster is an excellent choice for enhancing the functionality and appearance of your Porsche 911, while at the same time offering the quality and durability you expect from Porsche original parts.
