(nett:2.257,01 €)

Product description

The PDLS Plus LED matrix headlight for the left side is a high-quality lighting element designed specifically for the Porsche Taycan. This genuine Porsche part not only offers excellent light quality, but also improved safety and driving comfort at night or in poor visibility conditions. The innovative LED matrix technology enables precise control of the light beam, ensuring that the road is optimally illuminated without dazzling oncoming vehicles. The headlights are equipped with the Porsche Dynamic Light System Plus (PDLS Plus), which includes adaptive light distribution and dynamic cornering lights. These functions automatically adjust the light distribution to the driving situation, which is particularly advantageous on winding roads. This used spare part is in very good condition and is undamaged. It is an original Porsche part, which guarantees a high level of fit and a long service life. The OEM numbers for this headlight are 9J1941113H, 9J1941113G, 9J1941113F, 9J1941113E and 9J1941113D, ensuring compatibility with various versions of the Porsche Taycan.

Installing this LED matrix headlight ensures that the lighting on your Porsche Taycan meets the highest standards and maintains the aesthetic integrity of the vehicle. This is an excellent choice for drivers who value quality, safety and the authenticity of their vehicle parts.
