(nett:3.924,48 €)

Product description

The LED headlight offered here is a high-quality original part specifically for the Porsche Macan, model series 95B, built between 2022 and 2025. This left headlight is equipped with advanced PDLS+ technology (Porsche Dynamic Light System Plus), which provides adaptive light distribution and dynamic cornering lights to significantly improve visibility at night and in poor weather conditions. The headlight bears the OEM numbers 95B941077M and 95B941077F, which confirm its authenticity and compatibility with the corresponding vehicle models. As a new, unused and undamaged original Porsche part, this headlight not only guarantees a perfect fit, but also the high quality and durability you expect from Porsche spare parts.

This product is ideal for Porsche Macan owners who need to replace a damaged headlight or want to upgrade their vehicle with the latest lighting technology. Installation should preferably be carried out by qualified personnel to ensure the best possible functionality and safety.
