### Product description

This retrofit kit for the PCM 4 navigation system has been specially developed for the Porsche Macan models from 2017 to 2018. It enables the seamless integration of an advanced navigation system into your vehicle, which not only optimises route guidance but also makes operation easier via a user-friendly interface. In addition to navigation, the PCM 4 (Porsche Communication Management 4) module offers improved connectivity with mobile devices and supports various multimedia functions that significantly enhance the driving experience in the Porsche Macan.

Although specific OEM part numbers and brand information are not provided for this product, the specialised adaptation for the specified Macan model years guarantees a perfect fit and functionality. The system is designed to harmonise with the vehicle's existing settings, enabling a quick and efficient upgrade.

This retrofit kit is ideal for Macan owners who wish to equip their vehicle with state-of-the-art technology to take navigation and entertainment to a new level. It ensures you always find the best route whilst benefiting from a high-quality, integrated system developed specifically for your Porsche.
