Price:	17.199,72 € (nett:14.453,55 €)

Product description

This high-quality carbon mudguard for the Porsche 911 model 992 S/T, specifically for the right side of the vehicle, is an original Porsche part with the OEM number 9GT821104BYG2X. The mudguard is made of carbon, which gives it exceptional lightness and strength. This not only improves aerodynamics but also reduces the overall weight of the vehicle, which in turn can increase efficiency and performance.

The condition of the fender is described as very good and undamaged, making it an excellent choice for those looking to restore their vehicle or simply replace a damaged fender. As a used but original Porsche part, this fender ensures that the originality and value of your Porsche 911 model 992 S/T are preserved.

The use of original parts such as this fender also ensures that the fit and functionality meet Porsche's high standards, which is not always the case with imitation products. This fender is an excellent choice for owners of a Porsche 911 model 992 S/T who value quality, performance and authenticity.
