Product description

The rear axle steering gear offered here is specially designed for the Porsche Panamera model 971 and plays a crucial role in improving the vehicle's handling and manoeuvrability. This steering gear enables the vehicle to steer precisely and sharply even at high speeds or in tight corners, which is particularly advantageous in urban environments with tight parking spaces and sharp corners.

The OEM numbers for this part are 971423051EQ, 971423051EE, 971423051DL, 971423051CE, 971423051CA, 971423051BL, 971423051BG and 971423051AP. This wide range of part numbers ensures compatibility with various vehicle configurations of the Porsche Panamera 971 series and makes it easy to check the exact match and suitability for your specific vehicle model.

The steering gear is classified as "used" but is in very good condition, undamaged and meets the high quality standards expected of Porsche genuine parts. It is an excellent choice for replacement or upgrade, allowing you to continue enjoying the luxurious driving experience and high performance expected of Porsche vehicles.

Installing this rear axle steering gear in your Porsche Panamera can significantly improve the precision of your steering, increase stability when changing lanes and reduce the turning circle. With this original, well-maintained Porsche part, you retain the original driving characteristics and safety features of your vehicle, making it a valuable investment in maintaining the performance and reliability of your Porsche Panamera.
