Product description

This product is an original Porsche 911 991 Turbo S Exclusive Series carbon fiber roof skin, specifically designed for the Porsche 911 model 991. The OEM number for this part is 99150399100, ensuring it is a direct replacement and fits perfectly with the corresponding vehicle model.

Crafted from high-quality carbon fiber, this roof skin not only enhances the aesthetic appeal of the vehicle but also contributes to weight reduction, which can improve both performance and fuel efficiency. The use of carbon fiber material provides superior strength and durability, making it an excellent choice for both replacement and upgrade purposes.

The condition of this roof skin is listed as used; however, it has been described as like-new, as it was removed from a new vehicle with low mileage. This ensures that the part is in very good condition, with minimal signs of use or storage wear, and offers a great alternative to brand-new parts.

This original Porsche part is ideal for owners who want to maintain the authenticity and performance of their Porsche 911 991 Turbo S Exclusive Series while enjoying the benefits of a lightweight and high-strength carbon fiber construction. Whether you are restoring, upgrading, or simply maintaining your vehicle, this roof skin is an exceptional choice that combines quality with the prestige of original Porsche parts.
