Price:	961,04 € (nett:807,60 €)

Product description

This original Litronic 2.0 xenon headlight for the Porsche 911, model 993, is specially designed for the left side of the vehicle. It is the US version of the headlight, which features specific settings and requirements for the American market. This headlight has the OEM numbers 99363195101 and 99363105101, which confirm its authenticity and specific fit for the specified model.

The condition of this used headlight is very good; it is undamaged and therefore an excellent option for replacement or upgrade. As a genuine Porsche part, this headlight not only guarantees a perfect fit, but also the high quality and performance you expect from Porsche products.

Please note that the ignition control unit is not included with this headlight. This allows for customisation or the use of an existing control unit. Using this high-quality xenon headlight not only improves visibility at night and in poor lighting conditions, but also enhances the aesthetic appeal of your Porsche 911.
